TEEN MATURE READ

Dear Book Fair Chairperson, Teacher or Librarian:

We are pleased to offer you the newly-expanded *Teen Mature Read Module* as another great option to consider when booking your next Book Fair event!

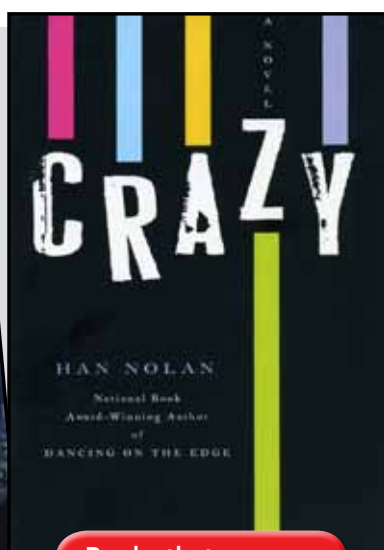

This optional module will include an assortment of edgier, more mature titles for teen readers. In this selection, you will find a wide range of best-selling, critically-acclaimed and cutting-edge works of fiction and non-fiction. These books not only offer greater choice to older readers but also explore dramatic, intense subjects and characters dealing with difficult choices and situations. Titles like the ones below, have been carefully considered to satisfy an array of tastes, interests and reading levels.

Our hope is that these challenging reads will engage your older students, potentially spark the opportunity for wider discussion or simply, continue to foster a greater love of reading.
